

# Milk In The Microwave - Hey, Doctor Doctor

tom: G

Hey Doctor Doctor G  
 Could you tell me what's wrong B7  
 I know you're very busy so Em  
 I won't make this too long A  
 I got a question 'bout the rain C Cm  
 The fog that just won't go away G E7  
 And something quite absurd Am  
 That I just learned the other day D

G  
 I asked my friends B7  
 This simple question 'bout the rain Em  
 But then they went all quiet and A  
 Looked at me in a funny way C Cm  
 They asked me what I meant G E7  
 So I described the time I spent Am  
 Avoiding all the puddles D G

Though I still got wet  
 B7 They said that morning  
 Em Had been a sunny day  
 A I asked the folks around us  
 D And they all said the same  
 B7 I sat confused  
 Em In my wet socks and shoes  
 A I shrugged and said "That's right!"  
 D7 The sky wasn't gray, it was blue!"

G  
 But, Doctor Doctor B7  
 It's been so very long Em  
 Since I've last seen the sun A  
 It seems they must just all be wrong C Cm  
 Unless it's me who's been confused G E7  
 Then why've my blue skies been refused Am  
 And hidden from me D G  
 By my rainy days
