B                   E
Somewhere in my dreams
        B               Abm
I'm walking down the street
Dbm        Gb              B
Trying to reach you all the time

B               E
I can hardly speak
        B             Abm
My heart is on my knees
Dbm        Gb            B
You are the one I really care

    B               E
I whispered your name
        B           Abm
But you stayed the same
    Dbm    Gb          B
A picture difficult to see

Following the lights
        B             Abm
I'm running out of time
Dbm        Gb                 B
Then I remember it's just a dream

   E        Gb         B
(Step by step) I feel like I'm going back
   E        Gb            B
(Say that) I ain't gonna crack
   E        Gb             B            Abm
(Tell the truth) why are you always feeling blue?
```
