[Primeira Parte]

                 F
I've seen it risin', yeah, she got me shinin'
              C
Oh, she really did like no one?ever?did
             F
I've seen it?fallin', yeah, she made the call
           C
And?so much in between, you never can redeem

                 Am
Just fly a?little?bit,?oh, fly a?little
               Em
Forever leavin' ground,?amazement all around
           F
Releasin', releasin'
              G
When you're leavin'

[Refrão]

                 F
I've seen your wings when they're workin', when they're open
                    C
When they take you out, what they bring back home, and
                F
I've seen this place when it's full of all the light
            C
Between the mornin', even if it's broken

                Am
```

```
And now it's crawlin' with thoughts
                    Em
Fallin' to pieces of things that we believed
Who are we to dream?
                 F
The wind is blowin', it's made itself at home
                 G
But it's leavin' and you're leavin'
