

Minutemen - This Aint No Picnic

Tom: **E**

"this ain't no picnic"
as tabbed by primusfan

tab than most punk songs. here it goes --

this is the introduction. you can play the first chord in the shape of the other 7#9's "purple haze" but i like the one i wrote down better as it's slightly easier to switch to (at least for a guitar newbie)
Intro: (slowly)

E7#9 **B7** **D7#9** **A7** **C7#9** **G7** **B7**

VERSE (moderate funky tempo)

Bb-5 **Em**

SOLO -- i'm doing this kinda rushed, but here's the gist of the solo. i'm missing lots notes, but basically just solo in pentatonic for awhile. if you don't know what that is find out. :D

might be played like this --

E-0-
B-3-
G-4-
D-2-
A---
E---

you can play the chords however you want though. i actually prefer to play the **Em** as a barre chord at the 7th fret. anyways, cheers. i'll have the solo up soon.
