Don't Bother None
 Cowboy Bebop
 tabbed by SJ

One of the more difficult songs I've had to tab;
 heres the key; this is a blues song, so add a few
 bends, not just for effect but also for "feeling."
 For those who don't know what I'm talking about;
 go play more blues. The song is played on an acoustic.
 For the Intro, the guitarist often strums every
 string on the guitar (but mutes most of the notes)
 to get a sort of chipping sound
