

Mishaal Tamer - Superman

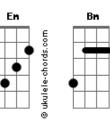

```
tom:
                                   Fm
Going on another lonely ride
Driving through the night
Never felt so right
I'm superman, you see me soar so high
Flying through the sky
Never felt so high
Ready for the Friday night
Uber driver makes it right
I'm so drunk and fucking high
I barely see the city lights so
Play your tricks and I'll play mine
Windows soaked and rainy skies
Pretty girls and pretty guys
People lining up for hours and
Tonight I'm gonna shine
Tonight I'm looking fine
I said it once, I'll say it twice
It's gonna be a crime
Going on another lonely ride
Driving through the night
Never felt so right
                          \mathsf{Em}
```

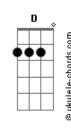

I'm superman, you see me soar so high Flying through the sky Never felt so high (high) I'm going on tonight I'm gonna take my time I'm gonna show up looking fine I'm going to the night I'm going feeling good I'm feeling like I should A little drinking, a little smoking In the neighborhood Going on another lonely ride Driving through the night Never felt so right I'm superman, you see me soar so high Flying through the sky Never felt so high I'm going on another lonely ride Driving through the night Never felt so right I'm superman, you see me soar so high Flying through the sky Never felt so high
