Hey, hey, hey

Honey

Just shut up and ride

Wherever you are

I want it on fire

Keep it up, you started a war

Keep it up, you started a war

Oh, you can laugh it off

But you started a war (Oh, oh, yeah)

Oh, you can laugh it off

But you started a war (Oh, oh, yeah)

Oh, you can laugh it off

But you started a war (Oh, oh, yeah)

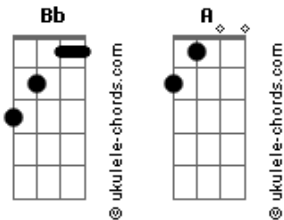

Oh, you can laugh it off

But you started a war (Oh, yeah)

Honey

Look close into my eyes

## Acordes

Whenever I feel

I need you tonight

Keep it up (You started hah)

Keep it up, you started a war

Can't see you, but I see what you're saying

The little moves that you're making

We can bite down on the world for the taking

The little ones that you're making

Can't see you, but I see what you're saying

The little moves that you're making

We can bite down on the world for the taking

Baby, ooh, can't you take it?

Oh, you can laugh it off

But you started a war (Oh, oh, yeah)

Oh, you can laugh it off

But you started a war (Oh, oh, yeah)

Oh, you can laugh it off

But you started a war (Oh, oh, yeah)

Oh, you can laugh it off

But you started a war (Oh, yeah)
