

Molly Nilsson - Hey Moon!

Tom: G

Intro: F C G F
F C G F
F C G F
F C G F

I know it's been so long since we saw each other last
(F C G F)
I'm sure we'll find some way to make the time pass
(F C G F)

Hey moon, it's just you and me tonight
Everyone else is asleep
Hey moon, if I was to fall
I would fall so deep

Though I doubt I'm gonna, you can wake me up if you wanna
(F C G F)
(F C G F)

And your pale, round face makes me feel at home in any place
I would happen to be at a quarter past three
(F C G F)
(F C G F)

The moon chased the sun out of the sky, goodbye sun, the night's begun
The moon chased the sun out of the sky, goodbye sunshine, the night is mine
(F C G F)
(F C G F)

Hey moon, it's just you and me tonight

Everyone else is asleep

Hey moon, if I was to fall
I would fall so deep

Though I doubt I'm gonna, you can wake me up if you wanna
I would hate for you to hang there alone the whole night through

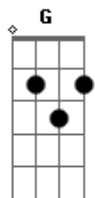

And I would love to spend the whole night just looking at you
(F C G F)
(F C G F)
(F C G F)
(F C G F)
(F C G F)

And those seeds, little stars you spread around
They make such a dramatic background
I don't care for sunbeams, no
I need the night to feed my dreams
And that's why

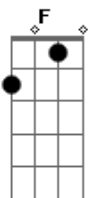

The moon chased the sun out of the sky, goodbye sun, the night's begun
The moon chased the sun out of the sky, goodbye sunshine, the night is mine
(F C G F)
(F C G F)

Hey moon, my old friend
Hey moon, the night is coming to an end
Hey moon, come back soon
