# Monaco - Shine

```
                              tom:
                 D
Intro: D  A  Bm  G
       D  G  Bm  A  G

     D                        A
Every day, I keep on lying to you
                           Bm          G
I just don't know what to do, but I do
               D
So leave me alone, I just want

                  G
To stay here at home
                        Bm               A
So far away from whatever some might say
                  G
And some might do
D
Just as I thought

         Em
I found someone that needs me
G                            D
Some one that needs me, so much
     D
And just as before

          Em
It's that someone that needs me
G                            D
Some one that needs me, so much

( D  A  Bm  G )

         D                              A
But it's you, spinning me out of control
                       Bm
Hurting me deep in my soul

        G
So I'm told
               D
I just wanna stop

                              G
Cos nothing's as bad as it seems
                         Bm
I can't be bothered so stay a while
                           A    G
And tell me what it all means
D

Just as I thought

         Em
I found someone that needs me
G                            D
Some one that needs me, so much
     D
And just as before

          Em
It's that someone that needs me
G                            D
Some one that needs me, so much

( D  A  Bm  G )

  D                     A
Now, I'll tell you the truth
                      Bm
'Bout what I should do

                           G
Why I can't stand you no more
D
There's a time and a place

     G           Bm
My life's such a waste
                           A
And everything had to go wrong

It's just what I needed

( A  D  Bm  Gbm  G )
( D  Em  G  D )
( D  Em  G  D )

D
Just as I thought
          Em
I found someone that needs me
G                            D
Some one that needs me, so much
     D
And just as before

          Em
It's that someone that needs me
G                            D
Some one that needs me, so much
```
