

Moons - Creatures Of The Night

tom:

D

D

It was 6 AM, the beginning of the morning

when I finally laid in my bed

Outside, the cold froze the dew on my window

the heater is broken but I just don't care

High with the stars till the last moonlight thread

A sight to behold through a silvering path

Feet off the ground, the gravity is so kind

Taking dreamers like me for a soft ride

The nighty breeze shakes the canopy of trees

E

The leaves are on the ground scattered randomly

D

The animals howls, the creatures of the night

E

The phases of the moon ruling the tides

Bm

A boat in the ocean sailing to nowhere

E

Something inside tells me not to be scared

Bm

My demons are gone, just for a while

E

They might be back with the first rays of light

D

What more could I ever want?

D

What more could I ever want?

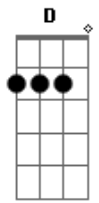

Bm

What more could I ever want?

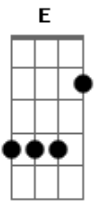

Bm

What more could I ever want?
