

Moons - Creatures Of The Night

tom:

It was 6 AM, the beginning of the morning

E
when I finally laid in my bed

D
Outside, the cold froze the dew on my window

E
the heater is broken but I just don?t care

D
High with the stars till the last moonlight thread

E
A sight to behold through a silvering path

D
Feet off the ground, the gravity is so kind

E
Taking dreamers like me for a soft ride

The nighty breeze shakes the canopy of trees

Acordes

The leaves are on the ground scattered randomly D
The animals howls, the creatures of the night E
The phases of the moon ruling the tides Bm
A boat in the ocean sailing to nowhere E
Something inside tells me not to be scared Bm
My demons are gone, just for a while E
They might be back with the first rays of light D

E
What more could I ever want?
