

Moons - My Cave

tom:
 E
 Let me lead you up into the night
 E
 Where shadows rest till the morning light
 A
 And we can be ourselves and step out from our
 E
 Caves
 E
 See things through another point of view
 E
 Stare the person who speaks to you
 A
 And inside his eyes, this moment is all you need
 Gbm
 Can I be clear with you
 E
 And open up my heart?
 Gbm
 Leaving my cave saved up
 E
 My life is been from town to town
 E
 I got no root and I?m tired of wondering how
 A
 I ended up in here, isolated in my own cave
 E

E
 Twas when you took me by the hand
 E
 And showed me it was not the end
 A
 I just remember to say: Baby, I?m all yours now
 Gbm
 Can I be clear with you
 E
 And open up my heart?
 Gbm
 Leaving my cave
 E
 Saved up my life
 Gbm
 I just need a reason
 E
 Love was gone but soon it?s back
 Gbm
 Someone to rely on
 E
 You know better than
 E
 I know how to heal my heart
 E
 That was already broken in tiny little parts
 A
 I?m not a child anymore
 E
 Go get up and face the pain
