Bbm Fm Bbm

Never happy, not satisfied
Always complains for nothing
Hopes and dreams are fading away
It's not hard to figure it out
There's no doubt, you'll find a way
Live the moment, each and every day

[Refrão]

I don't know why
I cannot see the beauty in front of me
I cannot
I don't know why
I cannot see the beauty in front of me in front of me
Now I see here

It's always been there
People like their simple things
Live the moment, each and every day

[Refrão]

I don't know why
I cannot see the beauty in front of me
I cannot
I don't know why
I cannot see the beauty in front of me in front of me
Is it there?
Is it right there?
Right in front of you
Right in front of you
This is what you've been looking for
For a long, long time
Make it real, make it right now
Make it right now
You've got to live it now
