

## Mötley Crüe - Without You

```
Intro: F
        Dm F Dm G A Bb
Without you, there's no change
My nights and days are grey
If I reached out and touched the rain
It just wouldn't feel the same
Without you, I'd be lost
I'd slip down from the top
        A Bb
I'd slide down so low
Girl you never, never know...
   Without you, without you
A sailor lost at sea
 Without you, woman,
Ab Bb C F
The world comes down on me
Without you in my life
I'd slowly wilt and die
  G A Bb
But with you by my side
You're the reason I'm alive
       A Bb
But with you in my life
You're the reason I'm alive
But without you, without you...
(F Dm F Dm G A Bb)
Without you, my hope is small
              Dm
Let me be me all along
Let the fires rage inside
Knowing someday I'd grow strong
```
