G
I've seen some sad times I said
Em
I'd had enough of heartbreak
D **C**
I told myself that I could never fall again
G
Then sure as fate she came, I
Em
Just had to get to her and
D **C**
She gave me all her numbers, gave me all her names

Em **C** **G**
Cold and lonely without you
Em **C** **D**
Don't know if I can make it through
Em **C** **G**
Maybe you'll hear this song

You been gone way too long
Em **C** **D**
Too good to let it go, too good to be true

G
We left and we went home
Em
Unbelievable
D **C**
I looked into her eyes, thunder in my heart
G
And we were joined forever
Em
Our bodies slick together
D **C**
I told her everything, confessions in the dark

Em **C** **G**
Cold and lonely without you
Em **C** **D**
Don't know if I can make it through
Em **C** **G**
Maybe you'll hear this song

You been gone way too long
Em **C** **D**
Too good to let it go, too good to be true

G
She painted inspiration
Em
Onto my fractured soul, I
D **C**
Was never sure she knew how much she meant to me
G **Em**
She never trusted me, I know she didn't see
D **C**
The night she left she killed the heart inside of me

Em **C** **G**
Cold and lonely without you
Em **C** **D**
Don't know if I can make it through
Em **C** **G**
Maybe you'll hear this song

You been gone way too long
Em **C** **D**
Too good to let it go, too good to be true

Em **C** **G**
Cold and lonely without you
Em **C** **D**
Don't know if I can make it through
Em **C** **G**
Maybe you'll hear this song

You been gone way too long
Em **C** **D**
Too good to let it go, too good to be true
