

# Mr. Big - Nothing But Love

Tom: E

[Primeira Parte]

Guess what baby  
The things we said  
Came true today cause we listened to our hearts  
No one but you  
Will ever do  
Our search is through but our journey's just beginning

[Refrão]

Nothing but love can last forever  
Nothing but love can start  
To mend the place inside your heart that needed healing  
Nothing but love can last forever  
Nothing but love will start  
To make your head spin round and round  
You know you're feeling love

Nothing but love  
Nothing but love

[Segunda Parte]

Can't read you mind, lord knows I've tried  
But in your eyes, I see everything I need to know  
Nothing to do, but follow you  
My aim is true, I could never ask for any more

[Ponte]

And if you walk away  
You know that I will follow  
To steal back your broken heart  
At least until tomorrow  
Because forever comes today  
Beside you I can't hide you're the one

[Solo]  
E Dbm B A  
E Dbm B A

[Refrão]

Nothing but love can last forever  
Nothing but love can start  
To mend the place inside your heart that needed healing  
Nothing but love can last forever  
Nothing but love will start  
To make your head spin round and round  
You know you're feeling  
Nothing but love could hold your world together  
Nothing but love can start  
To let us hear the sounds above  
That have been screaming love  
Nothing but love, nothing but love  
Love, nothing but love, nothing but love  
Ooh, ooh, ooh, ooh

## Acordes
