tom:

Intro: Em C G D

Em C  
I saw a beautiful girl on the street

G D  
She looked nothing like me, I think

Em C  
But I wanted to call you and tell you about

G D  
The way that her hair got caught in her mouth

Em C  
I saw the wing of a bird on the road

G D  
It was early, I was walking alone

Em C  
And I found it lovely, and I found it sad

G D  
I don't know how you'd find it but I wanted to ask

Em C  
Everything's about you to me

G D  
Everything's about you to me

Em C  
Everything's about you to me

G D  
Everything's about you

Em C  
And at the bar, on TV

G D  
They were talking about the casualties

Em C  
Four hundred and counting and my only question

G D  
Was how would you feel if one was me?

Em C  
Would you wish we made love again?

G D

Would you want to revisit the marks on my skin?

Em C  
Cause the world could be burning, and all I'd be thinking

G D  
is how are you doing, baby?

Em C  
Everything's about you to me

G D  
Everything's about you to me

Em C  
Everything's about you to me

G D  
Everything's about you

Em C  
I'm sorry to be so serious, I know you don't like my long face

G D  
I am only here to tell you, That I am eviscerated

Em C  
I'm sorry to be so serious, I know you can't stand me this way

G D  
But I took hope and have desire, You are wildfire and I'm  
standing in the rain

( Em C )

After everything, everything, everything

D
