

My Chemical Romance - Hang Em High

tom:
[Primeira Parte]

Wait until it fades to black

Ride into the sunset

Would I lie to you?

Well, I've got something to say
Grab your six-gun from your back!

Throttle the ignition

Would I die for you?

Well here's your answer in spades!

[Segunda Parte]

Shotgun sinners
Wild eyed jokers
Got you in my sights
Gun it while I'm holding on

[Terceira Parte]

After all is said and done
Climb out from the pine box
Well I'm asking you
'Cause she's got nothing to say
The angels just cut out her tongue!

Call her black Mariah
Would I lie to you?
That girl's not right in the brain!

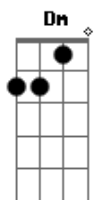

[Pré-Refrão]

Mass convulsions
Strike the choir
By the grace of God
Gun it while I'm holding on

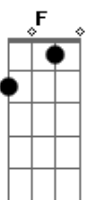

[Refrão]

But don't stop if I fall

And don't look back
Oh baby don't stop
Bury me, and fade to black

[Ponte]

She won't stop me put it down
She won't stop me put it down
She won't stop me put it down
So get your gun and leave me by the door

She won't stop me put it down
She won't stop me put it down
She won't stop me put it down
So get your gun and leave me by the door

She won't stop me put it down
She won't stop me put it down
She won't stop me put it down
So get your gun and leave me by the door

She won't stop me put it down
She won't stop me put it down
She won't stop me put it down
So baby

[Refrão]

But don't stop if I fall
And don't look back
Oh baby don't stop
Bury me, and fade to black

But don't stop if I fall
And don't look back
Oh baby don't stop
Bury me, and fade to black
