Nathan Angelo - Spread a Little Happiness

```
But it'll be enough
                Bh
                                          Fh
Spread a little happiness, spread a little bit of happiness
                                                                  When the world is cruel
                                Eb
Spread a little happiness, spread a little bit of happiness
                                                                  Turn your gray skies blue
                                                                             Em
                                                                  Yeah, it's up to me and you
It ain't hard to see all that's going wrong
                                                                                    Bb
                                                                  To spread a little happiness
I know it's far too easy now to sing a sad song
                                                                                 Bb Ab Eb
                                                                  Spread a little happiness
To sing a sad song
                                                                  Come on, y'all
                                                                  Look on the bright side
Lying on the ground never helped no one
                                                                  Never a better time
         Bb
When you get knocked down
                                                                  Look on the bright side
You know that you gotta get back up
                                                                             Gm
                                                                  To make the sun shine
Gotta get back up
                                                                  Look on the bright side
We gotta look on the bright side
                                                                  Never a better time
There's never been a better time
                                                                  Look on the bright side
