[Primeira Parte]

```
         B                B
When I wake up in the morn
                        B
And I?m gonna tell
         B              B             B
I was standing looking backward in and out
                  B              B              B
He said there?s room enough to crampen in the crowd
      B
No movement here
      B               B
No friends to break us out
        B                 B               B
Stop breathing or we?ll just swim fast
```

[Refrão]

```
            B      B  B
Oh I don?t know
            B      B  B
Oh I don?t know
            B      B  B
Oh I don?t know
            B        B  B
Oh I don?t know a goddamn thing
```

[Segunda Parte]

```
         B            B            B
Then these moments I forget to tell myself
                  B               B
And if you?re rolling in it long enough
      B
Your shit won?t even smell
            B            B          B
```
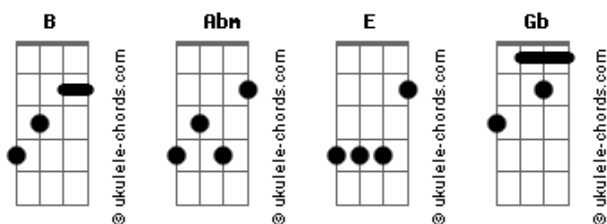

```
Is there no one I can trust to point it out
              B                    B
Well I can hardly breathe right here
              B
I was spitting on myself
            B            B               B
When I wake up in the morn and I?m gonna tell
```
