Em7 C7M Am7 D ( 2x )
                                                        That's the reason
Mmmm mmm yeah
Do do do do do do-do
                                                                 C7M
 C2
                                                        I'm so sick of love songs
Ohh Yeah
                                                        Am7
                                                                  D
                   C7M
             Em7
                                                        So tired of tears
Gotta change my answering machine
                                                        Em7 Ebm
                                                                          Am7 D
                                                        So done with wishing you were still here
Now that I'm alone
                                                              Em7 C7M Am7
                                                        Said I'm so sick of love songs so sad and slow
  Em7
                   C7M
'Cause right now it says that we
                D
                                                        So why can't I turn off the radio?
Can't come to the phone
    Em7
                C7M
And I know it makes no sense
                                                        (Leave me alone)
Cause you walked out the door
                                                        Leave me alone
But it's the only way I hear your voice anymore
                                                        (Stupid love songs)
         C7M
(it's ridiculous)
                                                        Dont make me think about her smile
     Am7
                                                        Or having my first child
It's been months
         D
                                                        Let it go
And for some reason I just
Em7 C7M
(can't get over us)
                                                        Turning off the radio
    Am7
And I'm stronger than this

                                                        'Cause I'm so sick of love songs

I'm so over being blue
                                                        So why can't I turn off the radio?

There's no more anniversary
