**G**  
"With your new babies heart something's gone wrong

**Am** **C**  
We'll do an operation if she can get strong"

**Em** **G**  
But a few month later my wife called on the phone

**Am** **C** **D**  
Jesus has healed her, they're sending her home

**G**  
And the doctors were baffled but I can explain

'Cause there is nothing

I used to believe my good days were spent

**Am**  
I'd never be happy and much less content

**G**  
And I'd clearly failed with all that I tried

**Am** **C**

There was nothing to do but just wait till I die

But Jesus came and rewrote my story

He gave me a life filled with love hope and glory

And my heart had a healing that cant be explained

'Cause there is nothing

There is nothing

There is nothing

That God can't change

So friend if you feel like there is no hope

Maybe you've come to the end of your rope

And your heart is saddened or it's made of steel

And no one can change the hard things that you feel

God's made you a promise, he'll do his part

The best work of all He'll do inside your heart

So just let him have it make the great exchange

'Cause there is nothing

There is nothing

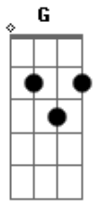

There is nothing

That God can't change...

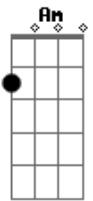

There is nothing

That God can't change
