Tumbleweed

Your inner beauty

Is a peace sign to me

Life is full of little tricks and

We can always pick up sticks and

Build again that's what we do

Harmony

The way we hold on

When we tumble through the night

Life is full of strange delights and

In the darkness we find lights

To make our way back home again

Tumbleweed

I'm baring my soul to you

Tumbleweed

It's all that I've got that's true

Tumbleweed

It's all that I've got that's true

Bite me now

with your confusion

Your happiness and delight

It will only hurt a moment

Then it's gone and you can't see

There's nothing left to leave a mark

Care for your kind

In the way you always do

When the flower moon is shining

It's eclipse and your lips smiling

Comfort me and I comfort you
