

Nessa Barrett - Tired Of California

```
(Is that weird?)
                tom:
                Gb (forma dos acordes no tom de E )
Capostraste na 2ª casa
                                                               I'm so tired of California, I'm so tired of LA
(I'm so tired of California, I'm so tired of LA )
                                                               Where the real thing comes as often as the California rain
(Where the real thing comes as often as the California rain)
                                                               I got all these legal toxins in my blood and in my brain
                                                               I keep saying that I'm leaving, but it doesn't work that way
I get sick of sunshine on my perfect skin
Vapid conversation giving me the spins
                                                               (Mm-mm-mm-mm Mm-mm-mm)
Driving down Mulholland, closing both my eyes
                                                               Can I be young forever?
            G
'Cause they say you get more famous when you die
                                                               Would it be fun forever?
                                                                           Em
                                                               Can I be young forever?
And everyone seems fine
                                                               Would it be fun forever?
Am I losing my mind?
                                                               (We're so tired of California, we're so tired of LA)
I'm so tired of California, I'm so tired of {\sf LA}
                                                               (Where the real thing comes as often as the California rain)
Where the real thing comes as often as the California rain
                                                               (We got all these legal toxins in our blood and in our brain)
I got all these legal toxins in my blood and in my brain
                                                               (We keep saying that we're leaving, but it doesn't work that
I keep saying that I'm leaving, but it doesn't work that way
                                                               way)
        E G
(Mm-mm-mm-mm Mm-mm-mm)
                                                               I'm so tired of California, I'm so tired of LA
                                                               Where the real thing comes as often as the California rain
I can't feel my h?artbeat way up in the Hills
                                                               I got all these legal toxins in my blood and in my brain
Burning down my mansion, didn't write a will
              Am
Front row at my fun?ral, crocodile tears
                                                               I keep saying that I'm leaving, but it doesn't work that way
Came here for the weekend, but I haven't left in years
Acordes
```
