NeverShoutNever - Ever So Sweet

```
Tom: E

               E
I just found a friend
                 A
In one of your lies
                Dbm
To treat me so nice
                B
I can't believe my bones
               E         A
When they say so many things
                   Dbm
They tell me I am fine
B
Believe me I...
A
try

E A Dbm B
ooooo

E
Ever so sweet
                  A
You make this seem
               Dbm
The way things go
        B
It's not my fault
           E
And I miss...
               A
I miss you so good
               Dbm         B                 A
All of those nights we lost our way back home

Chorus

E         A
Ever so sweet
      Dbm           B        A
You baked it in cakes for me
                 Dbm
What you left behind
          B
```

```
It hurts my teeth
E                          Dbm           B        A
Bringing the past with the postcards you sent for me
        Dbm
Every line

         B              A
It brings me right back down

Dbm Gbm Dbm Gbm

Bridge

    Dbm                              Gbm
Can't you see the wall you build for me?
    Dbm                              Gbm
Can't you see the wall you build for me?
    Dbm                          Gbm
Can't you see the wall you build for me?
                          Dbm
'Cause we're not special
                 Dbm
We're not special
                 Gbm
We're not special
                      Dbm
Well I'm not special
            Dbm        Gbm
I'm not special

Chorus

E        A
Ever so sweet
      Dbm           B        A
You baked it in cakes for me
                 Dbm
What you left behind
          B
It hurts my teeth
 E          Dbm           B                 A
Bringing the past with the postcards you sent for me
        Dbm
Every line
         B              A      A   E
It brings me right back down
```
