

NeverShoutNever - Liquid Sunshine

tom:

G

When the sky falls
When the roof leaks

D

When all the friends you have leave

C **G**

When everything you know is wrong
It's right

G

When the damage has been done

D

And the music sounds like shit

C **G**

When every candlelight's blown out

C **D**

When the high-time is your hideout

Em **G**

And daylight keeps you awake

C **D** **E**

When everything learned is wrong

G

It's right

C **D** **Em**

Liquid sunshine raining down from upstairs

G **A**

Might be heaven but who cares

C **D** **G**

If it's not for sale

G

When you are karma's bitch

D

And misfortune is your friend

C **G**

When every pleasure has been spent

C **D**

When the gamble is a fluke

Em **G**

And the years go down the drain

C **D** **E**

When everything you learned is wrong

G

It's right

C **D** **Em**

Liquid sunshine raining down from upstairs

G **A**

Might be heaven but who cares

C **D** **G**

If it's not for sale

G

When the sun has gone down

D

When your heart's cold and strung out

C **G**

When every lightbulb has fizzed out

C **D**

When the memories reduced to ashes

Em **G**

Blow passed in a corkscrew typhoon

C **D** **E**

When everything you learned is wrong

G

It's right

C **D** **Em**

Liquid sunshine raining down from upstairs

G **A**

Might be heaven but who cares

C **D** **G**

When it's not for sale
