Tom: G
Intro: C D Em 2x

```
    C              D              Em
I'm sorry for the nights I let you down
    C              D              Em
now all that's left to say is that I turned around
C          D              Em
back to the boy you fell in love with
C          D                  Em
   not this plague that brings you down

C              D        Em
Remind your mom to call me I still care
          C              D            Em
cause her approval meant the world and I would not dare to
C              D        Em
disagree with the life you've arranged
      C        D          Em
just remember only God knows if I've changed

              A              C
```

```
I'll sing along to every song
              A              C (hold)
I'll tag a lie for the ride

          G    D    Em      C          D
Cause in  my   head, I'd write there too
                      G
through the good times
      D              Em
the bad ones too
      C          D
I'm here for you
          G    D    Em
cause when  I    dream
              C      D        G
you're the one who keeps me asleep
      D                      Em
on nights where I could care less
          C        D
if I ever woke up again

End on G
