

NeverShoutNever - The Past

Tom: C

Intro: C

C

And I sing songs about the past

How I was raised And how I was thrown out on my ass

'Cause I didn't care

'Bout going to school

And I saw the look in her eyes

My mother nearly cried when I told her that I wanted to go

Just to prove them wrong

Am

I've been smoking Cigarettes

Since I was only fourteen

Just to find an escape

From this town that was so mean to me

C

And I sing songs about my friends

And how we grew up

In all the loose ends, we used to laugh

'Cause I didn't give a damn

And I saw the look in my brothers eyes

When I told him I was leaving

He couldn't help but despise me

He's wanted out his whole life

Am

I've been smokin' the green

Since I was merley sixteen

Just to find an escape

From this town that was so mean to me
