```
 (com acordes na forma de                  C )
Capostraste na 3ª casa
 Am        C            G
If you're looking for me
     E              Am       C        G
I'd suggest you look in the last place
E                          Am
That you will ever find me
C                    G
'Cause I'm going out
     E                   Am     C   G
With all my friends tonight, for once
Am         C        G     E
And if you can do one whole thing
         Am               C       G
Then I'd suggest you go out too
      E              Am
And smile up a storm
                 C        G
'Cause we're all as sad
          E                    Am
As you   think that you are
C         G
So just smile

(refrão)
Cause I've been
C              E                   Am        F
Looking up, looking down, looking side to side
C                         E                     Am
Wondering why this world is the way    that it is
                     F
And why my momma cries
C                    E            Am      F
Every night when I'm trying to rest my head
         C
On the floor
         E               Am        F
C G C
Half-stoned thinking "damn, this shit gets old"

( Am F C E ) (3x)

( Am C G )

Am          C           G
So if you have a problem
        E            Am                 C
I'd thoroughly suggest you look within
G E                          Am
Before you go and blame someone else
C                 G         E          Am
Whose been blaming someone else
C                 G
Their whole life
Am                           C
And I know we all got problems
              G             E
But we got a bigger problem

                    Am          C
We've been falling into pieces

             G                    E
And our power hides the knowledge
                    Am         C          G   E
We've been working our whole damn lives;
E    Am
But for what?
C        G
   For them

Cause I've been
C              E                   Am        F
Looking up, looking down, looking side to side
C                         E                     Am
Wondering why this world is the way    that it is
                     F
And why my momma cries
C                    E            Am      F
Every night when I'm trying to rest my head
         C
On the floor
         E               Am        F
C G C
Half-stoned thinking "damn, this shit gets old"

(Am F C E Am F C E Am F C E Am C G Am F C E Am F C E Am F C E
