

New Hope Club - Permission

```
Tom: B
                                                                Touch like you wanna be touched, yeah
            [Primeira Parte]
                                                                Kiss like you wanna be kissed, yeah
                                                                Oh, we don't need permission for nothing
Sometimes we get confused
                                                                                        Abm
                                                                Drink like you wanna be drunk, yeah
We never quite know what we want until the day we do
                                                                Feel like you wanna feel something
'Cause we don't get to choose
                                                                Oh, so we don't need permission
You can't just run away from love, when love comes chasing you
                                                                   Gb
[Pré-Refrão]
                                                                To love, to love
                                                                To love, to love, to love, to love
They say don't fall too hard
                                                                To love, to love, to love, to love
Or you'll just lose it all
               Gb
                                                                [Ponte]
They made these rules
               Ahm
They break them too
                                                                We can stay up all night if we want to
The same as us
                                                                Dance in the dark if we want to
[Refrão]
                                                                Take off our clothes if we want to
                                                                We don't need, no-no
So we don't need permission for nothing
                                                                We can lose our minds if we want to
                        Ahm
Touch like you wanna be touched, yeah
                                                                Ahm
                                                                Turn up the noise if we want to
Kiss like you wanna be kissed, yeah
                                                                Wake up the neighbours, drive them crazy
Oh, we don't need permission for nothing
                                                                [Refrão]
                        Abm
Drink like you wanna be drunk, yeah
Feel like you wanna feel something
                                                                So we don't need permission for nothing
                                                                                        Ahm
Oh, so we don't need permission
                                                                Touch like you wanna be touched, yeah
[Segunda Parte]
                                                                Kiss like you wanna be kissed, yeah
                                                                Oh, we don't need permission for nothing
Sometimes we get confused
                                                                Drink like you wanna be drunk, yeah
We never quite know what we want until the day we do
                                                                Feel like you wanna feel something
'Cause we don't get to choose
                                                                Oh, so we don't need permission (to love)
You can't just run away from love, when love comes chasing you
                                                                For nothing
[Pré-Refrão]
                                                                Touch like you wanna be touched, yeah (to love)
They say don't fall too hard
                                                                Kiss like you wanna be kissed, yeah (to love, to love, to
                                                                love, to love)
Or you'll just lose it all
                                                                Oh, we don't need permission for nothing (to love)
                Gb
They made these rules
                                                                Drink like you wanna be drunk, yeah (to love)
They break them too
                                                                Feel like you wanna feel something (to love, to love, to love,
The same as us
[Refrão]
                                                                Oh (to love, to love, to love, to love)
                                                                   Gb Ab
                                                                To love, to love
So we don't need permission for nothing
                                                                We don't need permission to love
```
