

New Model Army - Bad Old World

Tom: C
Intro: A F G

Dear Justin, I know it's been a long time
Remember all those nights we spent sitting up talking
in your front room
About leaving this worn out world and starting again
far away in a better place
Well that's where I am now... but still thinking about you
Chorus:
I'm never going back there
I'm never going back to the bad old world
I'm never going back to the bad old world
I'm never going back to the bad old world
I was travelling with Laurel way up on the north coast
She's got family living up here in a nearby town
We found a piece of land that looks out towards the
North Sea islands across the bay
And the sun is shining on the water today
as I look out of our front door

I'm never going back there
I'm never going back to the bad old world
I'm never going back to the bad old world
I'm never going back to the bad old world
Bridge
A F A F G (2x)
Are you still scared of the future? Well that doesn't surprise me
You could come up and stay here a while, back off from the killing wheel
I used to think it was me who'd somehow sold out or given in on some almighty cause
But what difference would it make...it feels good to be out here
I'm never going back there
I'm never going back to the bad old world
I'm never going back to the bad old world
I'm never going back to the bad old world
