

New Model Army - Bad Old World

```
Tom: C
Intro: A F G
Dear Justin, I know it's been a long time
Remember all those nights we spent sitting up talking
in your front room
About leaving this worn out world and starting again
\ensuremath{\text{G}} . far away in a better place $^{\Lambda_m}$ F
              Am
Well that?s where I am now... but still thinking about you
                 \mathsf{Am}
I'm never going back there
I'm never going back to the bad old world
I'm never going back to the bad old world
I'm never going back to the bad old world
I was travelling with Laurel way up on the north coast
                              Am
She?s got family living up here in a nearby town
We found a piece of land that looks out towards the
North Sea islands across the bay
And the sun is shining on the water today
as I look out of our front door
