

New Order - Broken Promise

tom: Dm

Oh, I don't Dm know why people lie Am

And I don't C know why people die G

Everytime Dm I see you shout at me Am

Cause of all of the things in the world that I can't see C

And what I think goes on in this world Dm

For a mother and a father and a boy and a girl (kid) Am

Is that the more you earn the less you learn C

There's a fact in life where you (we) will burn G

And I never could believe it Dm

Am C

And I never could be true

Father, G things that mean so much to me Dm

Don't Am mean that much to you C

And I never could believe the way G Dm

You told me I was wrong Am C

If I'm right and if you are simple sin G Dm

For God's sake I was wrong Am C

Oh I don't know how I think this way

How you sit there looking at me all day

There's more to you than I can see

There's a shadow of a mother hanging over me

G Dm Am C

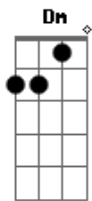

Oh I tell you out of heaven and I tell you out of hell

And I see your life in ruins, you're just earning that as well

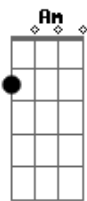

And I cry out in my loneliness, well used to be your peace

But you'll never see my face again, oh I need words like these
