

Newsboys - Something Beautiful

Tom: G

I wanna start it over I wanna start again
 I want a new a new beginning one without any end
 I feel it inside calling out to me

It's a voice that whispers my name it's a kiss without any shame

Something beautiful

Like a song that stirs in my head singing love will take us where

Something's beautiful

I've heard it in the silence seen it on a face
 I've felt it in a long hour like a sweet embrace
 I know this is true it's calling out to me

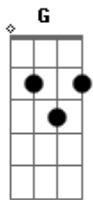

It's the child on her wedding day it's the daddy that gives her away

Something beautiful

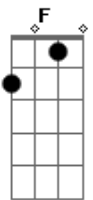

When we laugh so hard we cry it's the love between you and I

Something beautiful
