

Niall Horan - Issues

```
$\rm G$ $\rm G$ \rm Em 'Cause if you did, baby, I would judge you too
Intro: G G Em C
                  G G Em C
                                                                                                                                               I got issues, you got 'em too
I'm jealous, I'm overzealous
                                                                                                                                               Give 'em all to me and I'll give mine to you
When I'm down, I get real down, when I'm high, I don't come
                                                                                                                                               Bask in the glory of all our problems
                                                                                                                                                'Cause we got the kind of love it takes to solve 'em
I get angry, baby, believe me
                                                                                                                                                        C D
                                                                                                                                               I got issues, one of them is how bad I need you
I could love you just like that and I could leave you just
But you don't judge me
                                                                                                                                               I got issues
'Cause if you did, baby, I would judge you too
                                                                                                                                               C D C D
Oh, I got issues
                           D
No, you don't judge me
G G Em

If you did, baby, I would judge you too
                                                                                                                                               I got issues
                                                                                                                                               Yeah, I got issues
I got issues, you got 'em too
Give 'em all to me and I'll give mine to you
Bask in the glory of all our problems
                                                                                                                                               I got issues, you got 'em too
         G
'Cause we got the kind of love it takes to solve 'em
                                                                                                                                               Give 'em all to me and I'll give mine to you
I got issues, one of them is how bad I need you
                                                                                                                                               Bask in the glory of all our problems
                                                                                                                                               'Cause we got the kind of love it takes to solve 'em
You do it on purpose
You get mad and you break things, feel bad, try to fix things \begin{tabular}{c} \begin
                                                                                                                                               I got issues, you got 'em too
                                                                                                                                               Give 'em all to me and I'll give mine to you
But you're perfect, poorly wired circuit
                                                                                                                                                                                                          D
And got hands like an ocean, push you out, pull you back in
                                                                                                                                               Bask in the glory of all our problems
                                                                                                                                                'Cause we got the kind of love it takes to solve 'em
But you don't judge me
                                                                                                                                               I got issues, one of them is how bad I need you
If you did, baby, I would judge you too
                                                                                                                                               G G Em Cadd9
No, you don't judge me
