```
C              F              G
   Like the rain on a sunny day
G                             Am
   There's a shadow behind your face
Am                  C      F
   Tell me what you're running from
C          F              G
   I don't know what made you so afraid
G                             Am
   Don't you know you got the best of me?
Am                  C      F
   Yeah, you're everything I want
```

```
     G
Anyone can see
    C
Anyone can see
        G        Am
Your heartache, heartache
           G
You can talk to me
        C
It's more than skin deep
        G        F
But I'm trying, yeah
```

```
          G
Since we're alone
Am                            G
   Yeah, you can show me your heart
            F
If you put it all in my hand
        C
No, I swear
                    G
No, I won't break it apart
F                  G
   Yeah, since we're alone
Am                  G
   Show me all that you are
                    F
And if you get lost in the light
        C              G      F
It's okay, I can see in the dark
```

```
C          F                    G
   All your thoughts running through your head
G                             Am
   The things you think better left unsaid
Am                  C      F
   Just wanna know where you came from
C              F              G
   Why would you wanna play someone else
G                                Am
   I love you best when you're just yourself
Am                  C      F
   Yeah, you're everything I want
```

```
