Yeah, yeah, yeah, yeah
                    G7M
Yah, yah, yah, yah

D7M                           G7M
I took a little time to breathe, yeah
D7M                   G7M
I'm living in the new normal lately, ooh
D7M                       G7M
I used to need to catch the beat, ooh
D7M                       G7M
Now I know what to do to keep it

                                A
We're gonna dance before we walk
              Bm                              A
Off the moon, and I'm hittin' the ground like a rocket
Bm                        A
We're gonna dance before we walk
          Bm                                A
Took a shot, and I'm puttin' it right in the pocket

Now can you tell me
  Bm                                 A          Bm
Ooh, what you gonna do, what you gonna do, over, baby?
           A                      Bm           A
Off the moon, and I'm hittin' the ground like a rocket
                                       D7M
We'r? gonna dance before w? walk

```
               G7M
No, ooh

D7M                        G7M
I took a lot of time to say, oh
D7M                    G7M
I think I need a new direction lately, no, ooh
D7M                    G7M
And if I'm making a mistake, ooh
D7M                              G7M
I think I know how we're gonna face it

                                     A
We're gonna dance before we walk
              Bm                              A
Off the moon, and I'm hittin' the ground like a rocket
Bm                        A
We're gonna dance before we walk
              Bm                              A
Took a shot, and I'm puttin' it right in the pocket

Now can you tell me
   Bm                  A              Bm          A
Ooh, what you gonna do, what you gonna do, over, baby?
                        Bm                      A
Off the moon, and I'm hittin' the ground like a rocket
Bm                        A
We're gonna dance before we walk
          Bm  A
And no, ooh
             Bm  A
Oh, yeah

Hmm
