Intro: D Gbm A
                                                             Oh man, oh man
                                                                     Gbm
                                                            I am like you so I will prove from what you're feeling
 Oh damn, oh damn, oh damn
I'm so perplexed
                                                            Cause if I want you, then I want you, babe
                               D Gbm A
With just one breath, I'm locked in
                                                            Ain't going backwards, won't ask for space
                                                            Cause space was just a word made up by someone who's afraid to
 Oh damn, oh damn, oh damn
                                                            aet too
   Gbm
I'm so perplexed on that
                                                            D
          D Gbm A
                                                                 Gbm A
It's almost shocking
                                                            Close, ooh
                                                              D Gbm A
 I know, I know you know you're scared
                                                            Oh, so close, ooh
                                                                 D Gbm A
Your heart, your mind, your soul, your body
                                                            I want you close, ooh
                                                                                                 Gbm
 They won't, they won't, they won't be careful
                                                                 Gbm A

                                                            Cause space was just a word made up by someone who's afraid to
But I guess that you don't know me
                                                            get close, ooh

Cause if I want you, then I want you, babe
                                                                 D Gbm A
