C Dm F
C Dm F

[Primeira Parte]

I use my imagination for a livin'
I tell stories and build my worlds
But I've never wanted one more
Than this one with my little girl
I'm fascinated by your questions
I'm terrified to let you down
There's no one and nowhere that I'd rather be
Than with you right here, right now?

[Refrão]

Let's play princesses (Princesses)
A whole universe in your mind
Let's play princesses (Princesses)
Just me and you tonight
Let's play princesses
Princesses

[Segunda Parte]

Can I ask you a favor?
Can you stay this small?
Cause sooner or later you're seven or eight
And that dress just won't fit anymore
So pull up the carriage, strike up the band
Everyone at the palace, watching us dance
Saturday morning, stay in the moment
For every second I can

[Refrão]

Let's play princesses (Let's play princesses)
A whole universe in your mind
Let's play princesses (Let's play princesses)
Just me and you tonight
Let's play princesses (Let's play princesses)
Mm, I wanna see the world through your eyes
Let's play princesses (Let's play princesses)
Yeah-yeah, forever just you and I

[Ponte]

I get so caught up in doing my job
Put food on my table, been missing the plot
But you left me speechless the moment you started to talk
So don't stop

[Refrão]

Let's play princesses (Let's play princesses), mm, yeah
A whole universe in your mind
Let's play princesses (Let's play princesses)
Just me and you tonight
Let's play princesses (Let's play princesses), ah, mm, yeah
I wanna see the world through your eyes
Let's play princesses (Let's play princesses), oh-oh
Forever just you and I

[Final]

Let's play princesses (Let's play princesses)
Let's play princesses (Let's play princesses)
Let's play princesses (Let's play princesses)
Let's play princesses
