

Nick Lowe - Hope For Us All

```
Tom: C
People are remarking on the change that's come over me
It can be explained very easily
Out of the blue, someone's come into my lonely world
And now i'm walking tall
         Bb
And if even i can find someone
There's hope for us all
I had a reputation as a stay at home so and so
Cause when my friends would call me up
And say, "let's hit a club"
I'd tell them no, no, no, no
I must admit there were times
When all i ever did was climb the walls
But if even i can find someone
There's hope for us all
If even i can find someone
            Gm
There's hope for us all
```

```
Even in my darkest hour
                                       Dm
There was still a light somewhere
Letting me know by its glow
That i'd find comfort there
I walked a lonely street
Waiting for love to come
And if even i can find someone
There's hope for us all
Dada dada dadada
Dada dada dadada
I must admit there were times
When all i ever did was climb the walls
         Bb
But if even i, a feckless man
         Bb
Who's thrown away every single chance he's ever had
Can find someone to check his fall
        Bb
There must be hope for us all
If even i can find someone
         Gm
There's hope for us all
```
