Em G D A
Em G D A

[Primeira Parte]

The needle on my compass must be busted or bent
'Cause I can't walk straight
And I'm feelin' kinda beaten like the rusted out
Hinges on the backyard gate

[Pré-Refrão]

Well everybody lies? too much
Hoping they can find true love
?Cause hell is what we all? go through
To try and find an angel like you? Woah-oh

[Refrão 1]

Thank God you found me? FOUND ME
Because I'm broken and handing you my heart
When the night is surrounding? Need your light
Around me? or else I'm just standing in the dark
When the night is surrounding? Need your light
Around me? or else I'm just standing in the dark
Or ELS? I'M JUST STANDING IN THE DARK

[Segunda Parte]

My soul's got holes like a shotgun
Pattern on a highway sign
And the lady on the radio can stick this damn rain
Where the sun don't shine

Pre Chorus

Well everybody lies? too much
Hoping they can find true love
?Cause hell is what we all? go through
To try and find an angel like you? Woah-oh

[Refrão 2]

(Em G D A)

You turn to me? as if to say
Your turn to breathe as the shadows drift away
You can't explain? You just let go
Of all the pain that the world will never know
You turn to me? as if to say
Your turn to breathe as the shadows drift away
You can't explain? You just let go
Of all the pain that the world will never know (A)
