[Repeat intro]
Jai ho... Jai ho...
                                                                 Escape away, I'll take you to a place
I got shivers when you touch that way
                                                                 This fantasy of you and me, I'll never lose my chance (jai ho,
I'll make you hot, get what you got, I'll make you wanna say
                                                                 I can feel you rushing through my veins
(jai ho, jai ho)
I got fever, running like a fire
                                                                 There's an ocean in my heart, I will never be the same
For you I'll go all the way, I wanna take you higher
                                                                 (Jai ho) Just keep it burnin', yeah baby, just keep it comin'
                                                                 (Jai ho) You're gonna find out baby, I'm one in a million

(Jai ho) You are the reason that I breathe
                                                                 I know you can save me, you can save me, I need you now
(Jai ho) You are the reason that I still believe
                                                                 I am yours forever, yes, forever, I will follow

(Jai ho) No there is nothing that can stop us
(Jai ho) Nothing can ever come between us
                                                                 Jai ho (yeah, yeah, yeh yeh yeah)... Jai ho (yeah, yeah, yeh
