Maybe you're just like me
Intro: dução e Refrão:
                                                            You see the faces in the crowd
                                                                   Em
                                                            Looking down at their feet
                                                           C Em
                                                                            G D
Letra:
                                                            Never once make a sound
                                                           Refrão:
Solo:
                                                           Now you know
                                                           I need a miracle
I don't know who you are
                                                           A star-crossed lover
           Em
                                                             G D
And I don't know where you've been
                                                           An arrow in my heart
      Em
                  G D
Always out on your own
                                                           I need a rainy day
   Em
Always down on your knees
                                                           and an endless summer
                                                                   D
                                                           A pocket full of stars
