

Nira Sol - In My Own Light

```
tom:
Intro: Am F C G
[Primeira Parte]
I walk through quiet streets at dawn
No voices left to carry on
Yet every step becomes a song
I find my peace where I belong
[Refrão]
I?m not afraid to be alone
My heart?s a place I?ve come to know
In silence, I can hear my soul
I?m learning I?m already whole
Oh, oh, oh, oh, oh
Oh, oh, oh, oh, oh
[Segunda Parte]
The fading light, the open sky
Reflect the calm behind my eyes
The more I breathe, the more I see
There?s strength in just being me
    Αm
The world still spins, but I stand still
Not chasing love, just what I feel
In solitude, I start to grow
                                                                I?m learning I?m already whole
Becoming more than I could show
```
