                                                                   part 3 the chorus
This song is divided into only three parts. First part, verse
                                                                   I'll give you the chords and you can just figure out the
"no one around you for miles.....". Second part, the little
                                                                   strumming pattern
                                                                    it isn't too difficult.
that separates the first and the chorus. If you know the song
you know what
                                                                    4 1 1 3
I'm talking about. Third part the chorus. Then chorus changes
                                                                   4 1 2 4
                                                                   5 2 1 3
right at
                                                                             (repeat)
the end into power chords which would constitute a fourth part m m m m
except the
                                                                   \mathsf{m} \; \mathsf{m} \; \mathsf{m} \; \mathsf{m}
notes are exactly the same.
                                                                   m m m m
                                                                   part 4 the chorus in power chords (it comes in when they're
part 1 verse
                                                                   repeating the
                                                                   chorus at the end listen for it!!!!!)
m
                 (repeat)
