No Use For A Name - On The Outside

```
                              tom:
                    G
Intro: G Gb Bm E
           G Gb Bm E

[Verse 1]

Bm
I'll see you on the outside
G
And we'll never be the same
E
After all that's happened
Gb
What is it that we've gained?

Bm
I've made mistakes before
G
And never lived them down
D              A             Gb
After all you've done for me I'm bound

[Chorus]

Gb
(Don't say another word)
G                   D
To see you on the outside
                       A
Where we can both feel sane
A                  G
(You're speaking for yourself)
                    D
I am bleeding on the inside
                      A
A place you might have been
             G      D      Gb
But now I know I'll never be the same

[Interlude] G Gb Bm E

[Verse 2] Silent

Bm
I heard you got a new place
G
And it's far away from here
E
Reality has sunken in now
Gb
Confirming all my fears

Bm
```
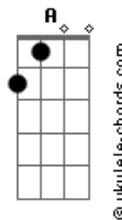

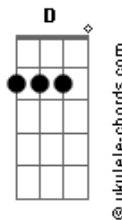

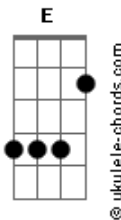

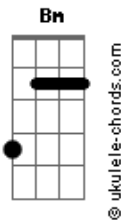

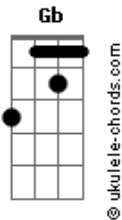

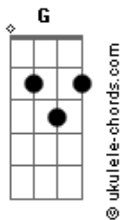

```
I am not gonna drag you down
G
But it's too late to stop
D                 A             Gb
Thinking about the time that we have lost

[Chorus]
                        G
(I am happy without you)
                        D
I am trying to forget you
                    A
And everything we've had
                        G
(We didn't stand a chance)
                        D
When miserable it is true
                      A
We haven't learned a thing
              G      D     Gb
But now I know I'll trust no one else

[Interlude] G Gb

[Bridge]
G         D                   A
There was a time when we were back and forth
A
It wasn't easy
G          D          A
I guess we're back where we belong
Bm               A      G
One thing is for sure it wasn't strong

[Break]

[Chorus]

G                    D
I'll see you on the outside
                     A
Where we can both feel sane
                       G
(You've never been more right)

                     D
I am dying on the inside
                      A
You're never coming back
              G   D       Gb
And now I know whatever we go through
              Bm Bm G G E E Gb Gb Bm
My heart is stuck with you
```
