## Noah Kahan - Glue Myself Shut

tom: Ebm (forma dos acordes no tom de Am ) Capostraste na 6ª casa Am

You're safe by the side of your father G Your sense of the world lay D7 In your little home by the harbor Am You've always felt small in the city C You think that last fall you were with me G And all of your old clothes D7 Are still in the hall of my building

You used to be scared of the water

You never asked once No, you never asked why If I was putting things off D7 If I was drinking too much of that red wine Am Oh, you'd wear yourself thin And accept every sin G And if I glued myself shut D7 You would find your way in Am We gambled our souls to the summer And rattled our bones to the thunder G We watched every sunset D7 Dm Until we got sick of each other Am You've always said fall was your season C

That everyone's here for a reason

D7

G I stare at your packed bags
