

# Noah Kahan - Spoiled

tom:

Intro: C F  
C F C G7 F

[Parte 1]

Gambling with the sun  
Oh which one of us dies young  
I ain't afraid to hold the gun  
If it leads me to the safe  
Tell the fellas at the morgue  
That I'm heading back on tour  
Gonna put them boys to work  
"Wipe your hands and wash your face"

[Pré-Refrão]

I'm filling every pause  
I'm speaking when I know something  
It's everything I want  
It's everything I want

[Refrão]

So my children get spoiled when they get old  
So they can fuck up all they want and blame it all on their dad  
So they can watch me go to work then fall asleep on the couch  
Page 1/3  
They'll say, "I wanna be you, but I don't wanna be that"  
They'll say, "I wanna be you, but I don't wanna be that"

To drag my ass back down to Earth  
'Cause, where I'm from and what I'm worth  
Have gotten too damn intertwined  
If I'm gone this time next year  
If I inhale the smoke and break the mirrors  
Fuck it, I might even disappear  
I hope you've had a decent time
