Noah Urrea - Good Intentions

```
                          tom:
                    G
                              G
I know I come home
A little to late
          A
Waking you up

And making you wait
        Dm7         Bm7
It's true,    true

                      G
And all of your friends say I'm a fool
                A
Maybe they're right
                          Dm7           Bm7
But they don't know you like I do,        do

        G                      Dm7
Baby, I'll never gonna give you up
                          A
Never gonna let you down
                        Bm7
Even when it gets your doubts

Bm7       A    G                      Dm7
 Ba------by, I'll swear I'm gonna make it up
                        A
Never gonna let you down, down
```
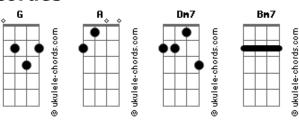

```
       Bm7
Nothing's gonna stop us if you

       G
Want me

Call me
       Dm7
Trust me

Just me

Jump with me

          A
And I'm gonna set in my lesson
Bm7
 I got nothing but good intentions

       G
Come with me

Run with me
Dm7
Trust me

Baby, you're the one for me

          A
And I'm gonna set in my lesson
Bm7
 I got nothing but good intentions
```
