

Noel Gallagher's High Flying Birds - A Dream Is All I Need To Get By

tom:
Capo: 5ª casa
Intro: Am7

You were talking in your sleep
The secrets you were meant to keep
You should've kept them in your head
But you let them out instead
Some of us need it sometimes
A dream is all I need to get by
Some of us need it sometimes
A dream is all I need to get by
Some of us need it

(Am7 F C G)
(Am7 F C G)

You were talking 'bout the past
The days you said would never last
And now the future's well behind
But I don't pay it any mind
Some of us need it sometimes
A dream is all I need to get by
Some of us need it sometimes
A dream is all I need to get by
Some of us need it
What for the love that got me so high?
Remember the days they made us feel so alive?

We're out on our own inside the city tonight
And tomorrow when the morning comes

But now the dream is over and the day is done

Say bye, bye
Bye, bye
Say bye, bye

(Am7 F C G)

(E E7)

What for the love that got me so high?
Remember the days they made us feel so alive?
We're out on our own inside the city tonight
And tomorrow when the morning comes

But now the dream is over and the day is done

Say bye, bye
Bye, bye
Say bye, bye

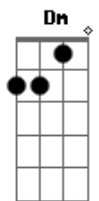

A dream is all I need to get by
A dream is all I need to get by
A dream is all I need to get by

The secrets I was meant to keep?

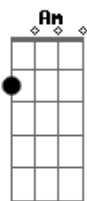

But I just let them out instead
